

**We have made some changes to our appointment system to make it easier to book using on-line services.**

**All GP appointments which are available to pre-book before the day of the appointment itself will in future be visible to on-line booking apps.**

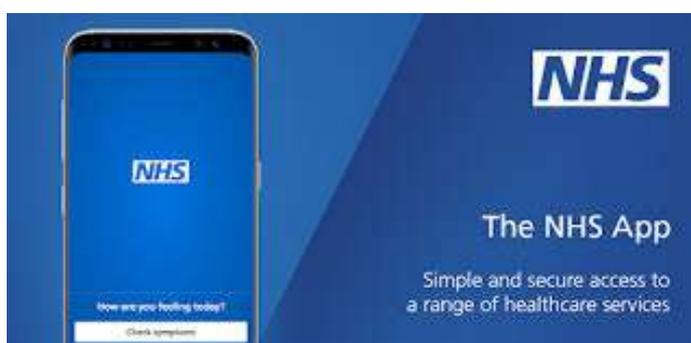

**New appointments will become available on-line every day.**

**On-line users will be able to see the same appointments as a receptionist on the phone so you no longer need to ring the surgery to get a wider choice of appointments.**

**Nurse appointments for cervical screening and asthma reviews can also be booked on-line.**

**If you don't already use on-line services for ordering medication or booking appointments you can register as a new user without having to visit the practice with ID.**

**Using the NHS app on a smartphone or tablet, you can verify your photo ID\* on-line and connect to your account in minutes.**

**Search your relevant app store to download the NHS app.**

We have made some changes to our appointment system to make it easier to book using on-line services.

All GP appointments which are available to pre-book before the day of the appointment itself will in future be visible to on-line booking apps.

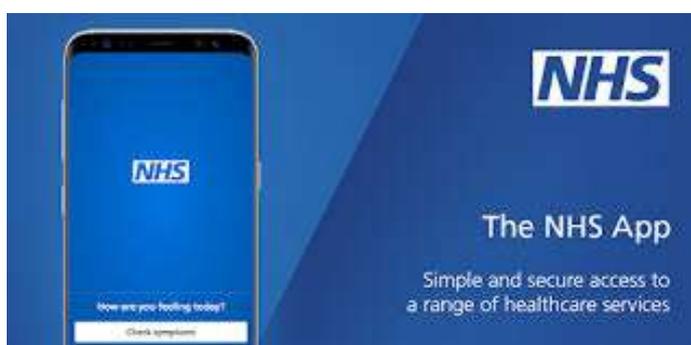

New appointments will become available on-line every day.

On-line users will be able to see the same appointments as a receptionist on the phone so you no longer need to ring the surgery to get a wider choice of appointments.

Nurse appointments for cervical screening and asthma reviews can also be booked on-line.

If you don't already use on-line services for ordering medication or booking appointments you can register as a new user without having to visit the practice with ID.

Using the NHS app on a smartphone or tablet, you can verify your photo ID\* on-line and connect to your account in minutes.

Search your relevant app store to download the NHS app.
